DID YOU KNOW?

Cowlitz PUD began construction of its first distribution lines in late 1938? The first pole was set on the northwest corner of Carnine Road and Spirit Lake Highway. The construction project was completed and the lines energized in February 1939. Our first customers, 442 rural families, were served off a 300 kVA transformer bank that was located north of Beebe Road and West Side Highway. Because the introduction of electrical cooking was newly being introduced, Cowlitz PUD, the Columbia Theatre and The Daily News ran a series of ads promoting a series of Cooking Schools.

HAPPY Valentine's Day

Energy Saving Tips from Customers:

Vicky from uses these tips to save energy in her home:

- Use weather stripping around doors and windows.
- Only heat the rooms you use.
- Adjust the thermostat at night and while you are at work.
